

CareSoft Pro®

Highly Efficient Softening.
Amazingly Smart Performance.

WaterCare's CareSoft Pro Series® is an achievement in efficiency – the smartest generation of adjustable water conditioners specially engineered to serve today's modern lifestyles.

With advanced control technology, CareSoft Pro systems can be easily tailored by your WaterCare dealer to effectively meet your household's specific needs for clean, soft water. Its highly advanced control technology even self-adjusts to changes in your water usage – so you'll always have plenty of quality water whenever you need it.

- **Proven savings** – ensures minimal operating costs of all other household water-using appliances
- **Advanced monitoring** – tracks and self-adjusts to water usage patterns or changes
- **Programmable operation** – matches system performance to your water conditions and needs
- **Environmentally efficient** – minimizes water and salt consumption, minimizes your overall carbon footprint
- **Economically efficient** – reduces soap needed to effectively wash dishes and clothes

WATERCARE® 
We Make Water Good for Life

CareSoft Pro®

**Highly Efficient Softening.
Amazingly Smart Performance.**

Since 1946, WaterCare and its family of professional dealers have offered only the best in water treatment equipment. The CareSoft Pro Series of equipment is the newest and most advanced system within our extensive line-up of proven solutions.

CareSoft Pro softeners feature a highly advanced control system with amazing operating efficiencies. By tracking your water usage and automatically adjusting itself, this system can keep pace with all your clean water needs... even with on-the-go lifestyles and ever-changing schedules.

Once your WaterCare dealer has thoroughly tested your water, all CareSoft Pro operating parameters can be set to effectively remove unwanted hardness and minerals. This programming versatility is key to minimizing water and salt consumption from the first day of operation. It's the one system designed for a custom fit.

CareSoft Pro water touches your life in so many ways... with softer, cleaner clothes, cleaner dishes and more suds from all your bar soaps and shampoos. You'll use less soap, less water and less salt.

Why CareSoft Pro?

With its state-of-the-art microprocessor, this control system practically thinks for itself.

- Self adjusting regeneration sequence – saves salt and water
- Fully programmable operation to your household's needs – saves salt and water
- Records operating history – easy to ensure efficient operation and service
- Power backup – no clock to set

Why WaterCare?

With over 60 years in the water treatment industry, the WaterCare organization has much to offer.

- Family owned and operated
- Local, professional dealer representation
- Factory-trained personnel
- A complete line of leading-edge water treatment solutions

Optional CareSoft Pro Cabinet Model

When space is limited, the CareSoft Pro cabinet model provides a totally contained system with a smaller footprint capable of holding 150 lbs of salt.
